## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments and amendments, filed 1/21/03, have been fully considered and reviewed by the examiner. In light of the arguments and the submitted abstract, the objection to the specification and rejections to the claims under 35 USC 112 have been withdrawn by the examiner. The examiner acknowledges the addition of Claims 15-17. Claims 1-17 are pending.

The applicant argues that the Sano reference does not teach a silica sol. The examiner respectfully disagrees. Sano teaches that the sol contains a significant amount of silica, which would meet the claimed silica sol limitations (see Col. 4, lines 32-68).

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2, 7-8, 10, and 13-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Sano et al.

Sano et al. is applied here for the same reasons as given above and in paragraph 5 of the previous office action.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3, 9, and 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sano et al.

Sano et al. is applied here for the same reasons as given above and in paragraph 7 of the previous office action.

6. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sano et al. as applied to claim 1 above, and further in view of Plueddemann.

Sano et al. and Plueddemann are applied here for the same reasons as given above and in paragraph 8 of the previous office action.

7. Claims 5-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sano et al. as applied to claim 1 above, and further in view of van der Kolk et al.

Sano et al. and van der Kolk et al. are applied here for the same reasons as given above and in paragraph 9 of the previous office action.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

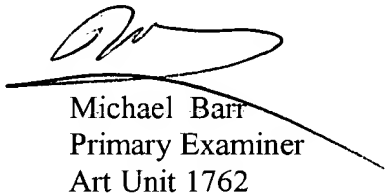

Art Unit: 1762

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
